OBJECTIVES

Enthusiastic about Artificial Intelligence with a strong foundation in Python. Continuously improving problem-solving skills and actively exploring machine learning concepts. Familiar with Python programming, with a focus on expanding knowledge in AI technologies. An optimistic individual with emerging leadership skills, able to collaborate effectively and build strong connections with others. Adaptable and a strong team player, committed to contributing meaningfully to group efforts and shared goals.

TECHNICAL SKILLS

- Python
- Machine Learning
- Data Scrapping
- GENAI
- Instagram marketing

PROJECTS

Mini Project: Object detection using ML & IOT

Jun 2024

- Developed an IOT for detecting objects for educational purpose to help the deaf & toddlers to learn.

Main Project: Home security system using Machine Learning and IOT

Nov 2024

- Automated home security system is the primary focus of the project, aimed at improving residential safety. The system integrates motion sensors, camera module, and microcontroller, such as the ESP8266 or ESP32 to monitor activity in a designated area.

EDUCATION

Mahendra Engineering College, Namakkal.

Nov 2022 – 26

Bachelor of Technology in Artificial Intelligence & Data Science

GPA: 8.50%

Higher Secondary School

May 2022

Mahendra Institutions

Percentage: 65%

Secondary School Leaving Certificate

March 2020

Avvai KSR Matric School

Percentage: 69%

ADDITIONAL INFORMATION

- **Languages:**
English, Tamil.
- **Certifications:**
Machine learning intern-10 days (Odugaatech pvt.ltd)
Python for beginners (Simplilearn)
Vintage, Modified & OBT tool Workshop (AEA KEC)
Ethical hacking workshop (KSRIET)
- **Awards/Experience:**
Won 2nd Prize at CATCH'24 for paper presentation.
Working as intern at MINDFULAI Technologies Coimbatore.
